W. F. Maclean Says C.P.R. Will

Make People Pay.

Member For South York Enters Vigor-

ous Protest Against Granting the

Railroad Permission to Increase

Stock From \$10,000,000 to \$20,-

000,000—Says It Means "Money

Cutting"—Graham's Reply.

Ottawa, Feb. 3.—The process known

to the technology of Wall Street as

"cutting the moneys" was the subject

of a brief but spirited debate in the

House yesterday afternoon. For the

benefit of members not familiar with

the phrase, Mr. W. F. Maclean said,

as an illustration, the proposed in-

crease of capital stock of the C.P.R.

from \$10 to \$20 million dollars, au-

thority to issue which has been grant-

ed by the Government. In this method

of finance Mr. Maclean declared there

was an attempt on the part of the

stock twenty-five million

of the people's money for the benefit

of its shareholders, and be vigorously

opposed the proposed increase of the

second. Hon. Mr. Graham, while

admitting that there was room for

argument as to the best and safest

method of financing the railway

corporation, pointed out that in au-

thorizing the C.P.R. to issue the ad-

ditional stock he had simply followed

the usual procedure.

Mr. Maclean found his opportunity

to raise the question on the motion

to go into supply. He claimed that

the increase in the indebtedness of the

Canadian railways was of the utmost

importance to the people, and that

there should be some control exercised

by Parliament over the issue of rail-

way securities. The State of New York

had recently passed legislation to the

effect that it had proved to be a

serious mistake. The issue of the

million dollars of stock by the C.P.R.

to its shareholders, a proposal which

in the open market it would bring at

least \$10 per \$100 share, would be a

public scandal. The stock ought to

be sold to the open market at the

highest bid, and there should be a

provision in the railway act that the

Railway Commission power to con-

trol the issue of such stock. Alterna-

any large amount in specie or real

estate capital. The C.P.R. had to look

every opportunity to retain its high

financial position. Granting the in-

crease of the company to extend rail-

way facilities in the west was the thing

the Government were justified in ex-

ercising its power to issue of stock.

There was a good deal to be said in

favor of giving some control of such

matters to the Railway Commission,

but it was a question whether the

Government, who were directly re-

sponsible to the people and to the pub-

lic, should be held responsible for the

divert themselves of such responsibility

in a matter of that kind, or when

freight rates were concerned, were

delegated by the Railway Commission

to the Government.

Hon. John Haggart maintained that

the stockholders of the C.P.R. had a

right to be considered, and that the

bill proposed the people so far as

freight rates were concerned, were

delegated by the Railway Commission

to the Government.

Mr. Spence supported Mr. Maclean's

contention that the stock should be

sold in the open market at the high-

est price it would bring.

Children thought that the C.P.R.

could get all the money it

needed by selling its western lands

at a reasonable price.

The matter then dropped, the House

going into supply.

Hon. Frederic Fisher was prepared

yesterday to introduce his bill giving

authority to the commission increasing

the salaries of the civil service, but

the opposition and other members of

the Opposition desired more information

on the details of the scheme, and

after a desultory discussion regarding

the issue and details of civil service,

consideration of the resolution was

adjourned.

The House spent three hours in

discussion of supply. Hon. Mr. Fisher

was put through the civil estimates,

and several civil Government items

were also passed.

Mr. Fisher (Western) has given

notice of a resolution asking the Com-

missioners to report on the

A similar resolution should be given

to the tariff to Canadian agricultur-

ists and stock-raising upon logs, but

ture and without undue injury to

the farmer.

South of the border a new

method has been suggested for the

raising of money for the

construction of the new

plant in the lower delta of the At-

lantic. The plan is to issue bonds

to raise the money, and then to

use the money to pay the

interest on the bonds.

Two G. T. R. Conductors, and Three Others Arrested.

Big Round-Up of Men Accused of Swindling Railroad. By Issuing

Bogus Tickets From Toronto to Montreal Is Successfully Carried

Out by Thief Detectives—Has Been Going on Over Three

Years.

Toronto, Feb. 3.—A big swindle by

which the Grand Trunk Railway has

been the victim for three and a half

years, was ended last night, with

the arrest of four Grand Trunk conductors

and three alleged "phony" ticket

agents.

Two of the arrests were effected in

Montreal and three in Toronto, the

swindle being practically simultaneous.

The swindle was carried on by the

issuing of bogus tickets, the value of

which was \$1 and 9 p.m. The prisoners

arrested were: Conductor Frank McCallum,

arrested on train No. 10 from

Montreal.

Jack Woods, 117 York street, ar-

rested at 8 p.m. on York street, ap-

parently in connection with the swin-

dle.

Henry Brown, William street, ar-

rested at 8:30 at the entrance to

the Kerby Hotel, Queen street.

Jack Woods, arrested in Montreal.

The roundup is due to the efforts

of the Toronto Police, who, in con-

sult with the Montreal Police, had

planned the sweep from both ends

of the swindle. It is the first time

that the local detective department,

which has been working on the case

for some time, has been able to

bring it to a successful conclusion.

the Toronto Police, who has been

working on the case for some time,

has been the chief architect of the

operation.

Judge Fralek's Alleged Remarks On License Cases

Liquor Inspector Makes Charges Which the Judge Denies— Matter to go Before Minister of Justice.

Toronto, Feb. 3.—Judge E. B. Fralek, of Belleville, was Mr. MacKenzie's guest at the dinner at the Hotel Astor last night when the license case was argued. Judge Fralek's remarks in the course of the argument were the subject of a letter from the Minister of Justice to the Hon. Mr. J. A. T. MacKenzie.

The following (floral) tributes and scintillating remarks were sent by the Minister of Justice to the Hon. Mr. J. A. T. MacKenzie:

At Kingston, yesterday, Capt. Hunter, of this city, filed a complaint against a party before him, for illegal fishing. A fine of \$25 was imposed. On Monday the inspector had two parties belonging to Prince Edward County fined \$10 each for trespassing on the property of the landowner. The inspectors had broken in the top of the houses and set traps therein.

What delicious oysters you have. We never got the like of them before. This remark we hear from so many of our customers. The oysters we are receiving are right from the old creek and put into saltwater packages. These packages are embedded in ice and neither ice nor water touches the oysters. They are also packed straight and green proof so that early opened during winter and do not lose their freshness and flavor as the ordinary oysters. Remember these oysters are small and sold at just per pound.

ON THE REBOUND.
By GARFIELD MACGILL.

Lillian Trevellick awoke on the morning her father had been to the sickening conclusion that she was an old maid. She parted the crimson curtains of her bed, covered with red net, suggestive of manna made for the eyes of the toward the window. "Well, where is the dog snout, then?"

"Get up, get up, get up—get up!"

"What's that?"

made him breathe and cold. She had visions of bruised cheek and chin and purpled cheeks. However, it did not really come to that. Yet she would live in the old and put her situation to extremity.

"What is it," she asked, "that Mr. Alsworth is in the drawing room?"

"He is," she answered, "and he is waiting for me to go to him and see how he gets on."

The Devil

By FERENC MOLNAR

Translated by OLIVER HERFORD

"You see, Olga, I trust you?"

"Of course you do, my dear cousin!"

"Now, good night. I'm going to bed."

When she was alone her husband's words returned to her.

"The trust test," she mused. "I told him about it tonight? Why wasn't it a matter of course?"

CHAPTER III

As she lay in bed, disturbed that night by vague half dreams which oppressed him when he awoke, she was filled with mingled, dark, disquieting thoughts.

It was the night of marriage. Elza, but it was without enthusiasm. Warm, beautiful, attractive, she made no impression on his heart, which seemed like a stone.

He looked around the studio with aversion.

The picture to the walls seemed no longer to represent the aspiration of the artist. They were the work of the middle who had passed and faded and talked around his walls.

He went to the door restlessly, nervously, twisting his unlighted cigarette in his fingers. He felt the light moonlight, his eyebrows drawn together, his hands clenched, his head overcast and hung himself to the door.

For an hour he plunged through the moon, the chase of the stone, watching his half dreams which oppressed him when he awoke, and returned back toward his home and entered.

He found the studio empty. The inviting form of the big architect with his white necktie, comfortable chair and high painting, as he had seen the artist, interested him. He went to the door, unlocked it, and stepped into a shadowy room, over the door he saw a shadow, a shadow, a shadow.

"What a terrible sight!" he thought.

"I called loudly, harshly: 'Where is the devil?'"

The old man, alarmed at the master's unexpected violence, hastened into the room, his face pale, his hands shaking, and he held them out from him that he might look at the shadow.

"Oh, what a terrible sight!" he thought.

"Monsieur?" Heinrich said hesitantly.

"What say you one here?" Karl asked.

"No, monsieur! Only my wife's shadow. She is waiting in the studio to meet you."

He walked across the room, picked up a white paper, and handed it to the artist, and he held the sheet before his eyes. He did not see the artist, but he saw the shadow, trying to finish his routine thought.

He turned, suddenly breathing and folding Karl's coat, waited. The artist came, and he held the sheet before his eyes. He did not see the artist, but he saw the shadow, trying to finish his routine thought.

"I thought it best to bring her to me. You have to be ready to leave."

"And we were obliged to arrive so many people," Olga said, still looking at the picture.

"I have these small affairs," Herman said, "but I suppose it is better to be ready to leave. What time shall I return for you?"

"I'll be home at eight," Karl said, looking at his watch. "In another hour I shall not be able to see. Suppose you return about a clock."

"Very well. And now I must go to bed. You are coming to the bed tonight, Karl? You know you really are a great fellow. What time shall I return for you?"

TIMELY TOPICS.

Every morning for a month or more the man had come to the gate in the center office and asked to see the general manager. Every morning the door had given him a blank stare to fill out.

"What a waste of time," he would say to himself. "I wish to see Mr. B. I wish to see Mr. B. I wish to see Mr. B."

As often as he had to go to work with the help of paper he came back with the same story.

In time the employees learned to look not at the clock for the hour of his coming, but at the weather, for low fever. Where he had come and where he was going.

One day, however, he came with a very matter-of-fact person called to see a neighbor, an elderly man, who had been illing for some time.

"And how do you find yourself today, Mr. B.?" was the greeting.

"Ah, Mr. B., I'm very bad. I feel much better than I did. I feel much better than I did. I feel much better than I did."

"What all could you do for me?" he asked. "I feel much better than I did. I feel much better than I did. I feel much better than I did."

To Preserve Forests. Earl Grey Addresses Canadian Congress in Toronto.

Conservation of Canada's Timber Supply is Subject of Conference in University Convocation Hall—Wholesale Slaughter of Trees is Responsible For Low Water, Say Speakers—Resources Small.

Toronto, Feb. 12.—The Canadian Forestry Association opened a two-day special meeting at Convocation Hall yesterday morning. The opening session was attended by Earl Grey, Mr. J. M. Gibson, Hon. Mr. Trevellick, Mr. Brown, and a number of other leaders in the forestry movement.

Mr. Trevellick, in opening the convention, said that the last 123 years in the United States the principle of individual ownership for forest lands has been followed unchecked and unregulated.

Earl Grey suggested that the association should consider the desirability of publishing with illustrations the President Roosevelt's message to Congress regarding forest lands.

MISS IRWIN.

When you and a lady meet a square deal may not seem so to the other, but it is.

Following is a copy of the report presented to the City Council, at a recent meeting, by City Engineer Lincoln, showing what was done by the Public Works Department last year, and how the money was expended:

To the Chairman of Public Works:—Dear Sir,—It may be remembered that, in September last, I gave a resume of the various operations which I reproduce in brief: Cleaning of ten principal streets. Cleaning of Front street three times.

Repairing and macadamizing of 17 principal streets. Permanent road built, three miles. Gravelled walks built, five miles. Building of new stone culverts throughout the city, 190 feet total length.

The important feature, however, of the year, was the work done by the department in the water bill, by comparison, in the water bill, it is found on reference to be as follows: 1907 wages bill amounted to \$5,500. 1908 wages bill amounted to \$7,612.25.

Superficial paving..... \$ 89.24
Gravelled walks..... 299.94
Flies three miles permanent..... 100.00
700 feet permanent culverts..... 60.00

Total actual saving..... \$359.51
It may be mentioned that this year the department did not receive any extra work over 1907 operations. As a matter of fact, the regular wages was not in fact paid until after the year was closed in 1907.

As this, however, is not considered a permanent work, I have not given it closely into the general comparison. It will be apparent, however, that this is the manner in which a private company would compare its revenue and public business. It, too, should be on the same basis.

The saving on granite walks at \$20,000.00 added to shown on separate report, making a total saving for the year under the label of Public Works alone of \$359.51.

Annual statement, showing construction of granite walks, 1908. 1908, 1907, for analysis: In 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, Montreal Star-Likes Mr. Johnson's Idea.

(Montreal Star.) Mr. J. J. Johnson, of Belleville, who occupies the address in the Ontario Legislature, and who is chief barrier in the way of late-coming between Ontario and Quebec was "ignorant of such a thing as language." This he thought, would be reduced by the "united action of the different Governments in establishing and maintaining two colloquialisms in the future, one in the French and one in the English, and the French could learn English, and the English could learn French."

The idea that all Canadians should exercise their double right to speak in two languages, is not much more than a pipe dream. It is not too far from the truth that the business to popularize this idea in Ontario, is not doing a particularly service to the country of the first importance; and if there were to be two such schools, the one teaching English, and the other teaching French, but what is to be done with the rest of the population? DOES MUSIC PAY?

Modern Earnings Compared With Old Time Prices.
Lewis M. Isaac has an interesting article in the Bookman on the earnings of musicians. He says that in the old days, when a musician played for a party, he got 10 cents for each of two or three songs. Today the tale of royalties paid composers makes the profits of a Wall Street broker seem small by comparison. And it is not only the profits of a composer that have increased. George Chalmers makes \$1000 a week on Victor Records \$20000 a year for his music the actual figure is not yet given to give color to the story. A PROCLAMATION

Whereas, the people of our city have been led to purchase so-called remedies from which they have received no benefit whatever, and having thus wasted so much hard-earned money, it has come to them that they know not what to believe.

Inasmuch as this unsatisfactory state of affairs exists, KNOW, THEREFORE, ALL PERSONS who are in need of cure, that we will supply them with VINOL on a POSITIVE GUARANTEE that if it does not succeed in benefiting them, we will refund the entire amount of money paid us for it.

There is no one medicine that will cure everything, but there are some we know to be honest, reliable, and of great curative value. Such is VINOL; it is not a secret medicine, just peptonate of iron, wine, and all the curative extracts of cod liver oil, combined. We are familiar with every particle of it, and know that it should benefit every one who uses it.

Could any offer be more fair than this? You are ill; we offer you medicine which we believe will help you, and if it does not we will return your money. Is there anyone foolish enough not to accept this offer? You owe it to your family, to your friends, and to yourself to try this medicine which we give you the price is a genuine cod liver and iron preparation of great merit.

We unhesitatingly recommend VINOL as a Body Builder and Strength Giver for Feeble Old People, Invalids, Children, and Women, and for Run Down Persons, and Those Needing a Good Tonic after the Grippe or any Severe Illness, and for Chronic Coughs, Colds and Bronchitis.

Do you think we could afford to lend our name to its praise, as we have been doing in the newspapers, if we did not know VINOL to be an honest and unusually valuable remedy for the ills for which it is prescribed? We certainly could not; we therefore ask you, our neighbors, friends and acquaintances, to accept our assurance that this is a genuine offer, and that any and all persons who need a medicine of this character should feel a sense of security in accepting it.

You will absolutely be under no obligation to us whatever, if after you have tried one bottle of VINOL, and have not received any benefit, you have not paid us a cent, and we will return the entire amount of money you paid us for it.

VINOL is an old and valuable remedy improved by modern science—tastes good and agrees with every one.

Call and get a bottle today. You won't be sorry.

"I can testify to the great merits of your Emulsion, especially in all diseases of a pulmonary nature. It has saved many lives that otherwise would have yielded to consumption. I will keep Scott's Emulsion in the house all the time and all the family use it."—MR. C. J. BUDLONG, Box 158, Washington, N. L.

Scott's Emulsion

does it. It does so by creating flesh and strength so rapidly that the progress of the disease is retarded and the patient stopped. It is a wonderful flesh builder and so easy to digest that the youngest child and most delicate adult can take it. If you are losing flesh from consumption or any other cause take Scott's Emulsion. It will stop the wasting and strengthen the whole system.

PENITENT PRISON FACTS.

Temperate Prisoners Make Half of Convicts in Canada.
The annual report of the Minister of Justice, published last week, shows that the total population of the Canadian penitentiaries for the year 1908 was 4,616, as compared with 4,421 in 1907. Of the total, 2,308 were sentenced to the penitentiaries for the first time, and 2,308 were returned prisoners.

It has been alleged by those who are opposed to the penitentiaries that the number of prisoners is increasing. In many cases, the number of prisoners is increasing, but the number of prisoners who are returned to the penitentiaries is decreasing. This is due to the fact that the penitentiaries are doing a better job of reformatory work.

Under the new law, the number of prisoners who are returned to the penitentiaries is decreasing. This is due to the fact that the penitentiaries are doing a better job of reformatory work.

FORWARDERS, Limited, was incorporated 21st October, 1907, by Letters Patent, from the Dominion of Canada, and was formed to take over and operate, as a going concern, the Elevator of Canada, Limited, situated on the West Side of Gore Street, in the City of Kingston.

The promoters of FORWARDERS, Limited, realize that Kingston is destined to be one of the largest grain centres for Montreal, and have demonstrated that it is cheaper to transfer cargoes from the Lake Erie Carriers, through the Elevator into low barges, which proceed to Montreal and permit the large lake boats to return immediately to the Elevator or Port Arthur, than for the Lake Carriers to continue to Montreal and return.

Statistics have proved that Montreal has captured the European grain trade. It is now being more extensive than New York or any other port in the City of Kingston.

The Canadian route is the quickest and shortest for through transportation.

A cabinet minister stated recently in the House of Commons that he had been informed that the Welland Canal were despatched to carry vessels from Duluth to the foot of Lake Ontario, it would hold the trade from the West against the Erie Canal for all time.

These conditions tend to make the Port of Kingston prominent and increasingly important.

Since the C.P.R. built its first elevator at Port Arthur, each year has seen an increased capacity for storing and transferring grain.

In 1908, the storage capacity of Port William and Port Arthur amounted to 13,000,000 bushels. There are three new elevators now being built and two more projected. By the end of 1909, there will be a capacity of 20,000,000 bushels of these ports to receive, store and transfer the grain that will come from the west.

Last year there passed through Kingston and Prescott 30 per cent. of all the grain that left Port William and Port Arthur and this percentage will increase as facilities increase.

The wheat crop of 1908 was 100,000,000 bushels, although only about 5 per cent. of arable land of Western Canada was under cultivation.

Lord Strathcona predicts that at the end of the century, Canada will have a population of 80,000,000, and J. J. Hill has stated that in the next fifty years there this country will have 50,000,000 people.

These few statements will serve to prove the enormous growth and development to be expected in the carrying trade of the St. Lawrence route.

Prospects of the Company and application forms will be mailed or delivered to any address.

Applications for stock must be accompanied with 10 per cent. on account, the balance of the subscription to be paid in installments of 20 per cent. on thirty days' notice.
